ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM  
MEMORANDUM

**DATE:** July 6, 2001  
**TO:** Executive Management and General Distribution  
**FROM:** Diane Ross, Assistant Director, DMS  
**SUBJECT:** Eligibility and Enrollment Report for July 1, 2001

- The increase in the total AHCCCS population in June was from 583,861 to 601,418 or 17,557.
- Note: This figure does not include members in the Premium Sharing Program, Health Care Group or the Medicare Cost Sharing Programs of the SLMBs and Qualified Individuals (5,762). If these populations were added in, the total would be approximately 627,000.
- I have changed the format of the table labeled "Eligibility Key Codes by Category Comparison." Hopefully the breakdown of various categories will be more meaningful.

There is a huge growth in the 1931 AHCCCS for Families & Children because of the shifting of populations from SOBRA Child of 32,060 to 1931/Expanded (formerly SOBRA Child) plus a shift of 993 former SOBRA Pregnant Women to 1931-Expanded. In addition, because of the increase in the 1931 income limit from 36% of a 1992 standard to 100% FPL we added 10,516 many of whom are the parents of the SOBRA Children who shifted to 1931 Expanded.

Also there was a major shift of about 18,000 individuals who used to be in TMA into the 1931 group. These are included in the 1931 "Regular" group because they were previously eligible and state share is paid out of general fund. In addition approximately 12,000 individuals shifted from AF related to 1931 Regular.

The Title XIX Waiver Spend down and Non-spend down groups increased to a total of 22,177 a growth of 747.

As a result of the shift of SOBRA children to 1931 Expanded the total of SOBRA children is 114,081.

The SOBRA pregnant women that did not shift to 1931 Expanded totaled 10,115.

Below is a summary of the total AHCCCS population:
